Infra:

- *Power distribution
- *From polygame/syke:
- *32A_CEE -> 1x16A_CEE & 2x32A_CEE & 3xschuko splitter and ~10m of 32A_VEE cable (3-phase)
- *We will probably need to get extension cable for the 32A

- *(2 pcs) 16A 3-phase -> 3x normal 220V distribution boxes (with fault interrupters) and 4x10m of cable
- *(6pcs) 8-plug extension cords with 10m cable (16A per cord)
- *Network switch, syke said they (polygame) can provide us with a switch too.
- *Few tables & chairs
- *Rambo: I might have a small folding table, also if we get some <http://www.ikea.com/fi/fi/catalog/products/10118971/> and I reinforce <https://github.com/HelsinkiHacklab/ledmatrix/> a bit we can use it as a cool self-illuminating table. I also have a spare tabletop and normal legs for it.
- *jssmk also has a small folding table and small folding chairs
- *Bigger tent to work as village "hub", ???, (can be rented via CCC)
- *Deadline for rentals 2015-06-20 <- we did NOT rent anything
- *Price list: https://events.ccc.de/camp/2015/wiki/Rent_a_Tent
- *With 10ppl the smallest tent might be bearable cost if everyone participates.
- *If we have more ppl the 6x6m one could be nice.

Projects:

- *Reactor simulator
