Infra:

- Power distribution
 - From polygame/syke:
 - 32A_CEE -> 1x16A_CEE & 2x32A_CEE & 3xschuko splitter and ~10m of 32A_VEE cable (3-phase)
 - We will probably need to get extension cable for the 32A
 - (2 pcs) 16A 3-phase -> 3x normal 220V distribution boxes (with fault interrupters) and 4x10m of cable
 - (6pcs) 8-plug extension cords with 10m cable (16A per cord)
- Network switch, syke said they (polygame) can provide us with a switch too.
- Few tables & chairs
 - Rambo: I might have a small folding table, also if we get some <http://www.ikea.com/fi/fi/catalog/products/10118971/> and I reinforce <https://github.com/HelsinkiHacklab/ledmatrix/> a bit we can use it as a cool self-illuminating table. I also have a spare tabletop and normal legs for it.
 - jssmk also has a small folding table and small folding chairs
- ~~Bigger tent to work as village "hub", ???, (can be rented via CCC)~~
- ~~Deadline for rentals **2015-06-20** ← we did NOT rent anything~~
- Price list: https://events.ccc.de/camp/2015/wiki/Rent_a_Tent
 - ~~With 10ppl the smallest tent might be bearable cost if everyone participates.~~
 - If we have more ppl the 6x6m one could be nice.
