## Infra:

- \*Power distribution
- \*From polygame/syke:
- \*32A\_CEE -> 1x16A\_CEE & 2x32A\_CEE & 3xschuko splitter and ~10m of 32A\_VEE cable (3-phase)
- \*We will probably need to get extension cable for the 32A
- \*(2 pcs) 16A 3-phase -> 3x normal 220V distribution boxes (with fault interrupters) and 4x10m of cable
- \*(6pcs) 8-plug extension cords with 10m cable (16A per cord)
- \*Network switch, syke said they (polygame) can provide us with a switch too.
- \*Few tables & chairs
- \*Rambo: I might have a small folding table, also if we get some <http://www.ikea.com/fi/fi/catalog/products/10118971/> and I reinforce <https://github.com/HelsinkiHacklab/ledmatrix/> a bit we can use it as a cool self-illuminating table. I also have a spare tabletop and normal legs for it.
- \*jssmk also has a small folding table and small folding chairs
- \*Bigger tent to work as village "hub", ???, (can be rented via CCC)
- \*Deadline for rentals 2015-06-20 <- we did NOT rent anything
- \*Price list: [https://events.ccc.de/camp/2015/wiki/Rent\\_a\\_Tent](https://events.ccc.de/camp/2015/wiki/Rent_a_Tent)
- \*With 10ppl the smallest tent might be bearable cost if everyone participates.
- \*If we have more ppl the 6x6m one could be nice.

## Projects:

- \*Reactor simulator
- \*<https://github.com/helsinkihacklab/reactor>
- \*Tesla coil ?
